Environmental Policy

We recognise that our business activities interact with the environment and are therefore committed to improve our operational efficiency to protect the environment. Our aims will be achieved through the implementation of an environmental management system in accordance with ISO 14001 and our commitment to the principle of sustainable development and in particular:

- a) Ensuring compliance with all applicable czech environmental legal and other requirements
- b) Identifying and managing significant environmental impacts of our business activities including those affecting communities that are local to our operations
- c) Striving for continual improvement in environmental performance through setting objectives and targets, including the monitoring and measurement of key performance indicators
- d) Employing best practices in the prevention of pollution
- e) Minimising, reusing or recovering waste, as opposed to disposal, where feasible
- f) Maximising the efficient use of resources including materials, fuel and energy
- g) Ensuring that environmental considerations are integrated into business development, as well as operational decision-making processes
- h) Involving employees and contractors in our environmental programmes and providing training and awareness to enable them to discharge their responsibilities effectively
- i) Consulting and involving relevant interested parties, including our customers and the wider community.

Every employee and others working on behalf of DSC have an individual responsibility to help meet the requirements of this policy and all are invited to contribute ideas for better practices to minimise our impact on the environment.

Our environmental policy is processed in compliance with environmental policy of Deutsche Post DHL.
